DOST-FNRI Publication of the Month: November 2024

Production and Characterization of Rice Flour as Reference Material for Chemical Analysis

This study was conducted to develop rice flour as a reference material (RM) for chemical analysis, focusing on moisture, protein, ash, potassium, and zinc contents. This RM is intended for use in laboratories for quality control and method validation.

To request for **FREE softcopy** of this information resource material, send an email to the Food and Nutrition Information Resource Station (FNRI) at informationresource@fnri.dost.gov.ph or fnri.iru@gmail.com. Kindly include in your message the title of the material, your complete name and affiliation. You may also send your request(s) through this form: <https://bit.ly/FIRSTRequest>.
